

LiveFX – Live streams that listen

The creator's voice becomes a meme, a sound and an animated scene in under a second – and tomorrow, a picture for everything spoken.

PRE-SEED ROUND

€250,000

for 18 months · runway 18 months

PROBLEM

Short videos get edited, live stays raw. Alerts react to viewers, soundboards to keys – no tool reacts to what the creator says.

SOLUTION

Voice → effect: DE/TR/EN auto-detected, dialect tolerance, story mode, 143 free stickers, safe GIF search (KLIPY/GIPHY, child-safety filter), phone remote, offline.

STATUS

Version 2.1 works and is used in our own streams; performance mode cuts frame time by 63–69%. No revenue yet. TR launch Q4 2026, Pro subscription month 3.
